

MEDIEKIT 2022

# GLASS & FASADE

**EDITORIAL:** We cover glass in facades and interiors. System of aluminum extrusions, shading, solar collectors and solar panels. The products evaluated in the context of architecture, energy, security, solar protection, etc. Primarily we present viable solutions for both inspiring and useful purpose. Security requirements and energy consumption are covered by critical eye.

**PURPOSE:** The magazine will encourage the use of glass in facade, interiors and decor. Products and use shall be described compared to architecture, energy, security, sun protection, functionality and design.

**TARGET:** The magazine is distributed to architects, contractors, building-technical consultants, consulting, municipal and structural engineers, municipal architects, technical managers, technical colleges, authorities, educational institutions, media, real estate companies, real estate developers, builders and the Norwegian glass and façade industry.
